SUSTAINABLE LANDSCAPE MANAGEMENT

## CLIENT PARTNER FEEDBACK

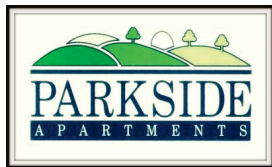

Since Western Landscape, Inc. began landscaping our commercial properties in the Sacramento area in 2010, we have seen a vast improvement in the overall appeal of our properties. The entire team has been a pleasure to work with and strive to ensure our satisfaction through immediate response times and open communication.

Renee Widmont  
Senior Property Manager – [Prologis](#)

After many years of working with landscape companies, we finally found Western Landscape, Inc. who have exceeded our expectations since 2012. With the drought in California as severe as it is Western Landscape has put forth extra effort to have quick response times to any irrigation issue that we find.

[Riverside Management and Financial Services, Inc.](#)

Western Landscape, Inc. has provided outstanding landscape maintenance, design, and installation project management services. The entire staff is competent, dedicated, and responsive. Western Landscape, Inc. has been a key element in sustaining the overall attractiveness of our community to potential tenants.
